Cederroth Eye Wash 500ml - 2 pcs

Number: MESP9.0015ST1

SPECIFICATIONS

Made in: Netherlands

HS Code: 39233010

DESCRIPTION

Cederroth eye wash bottle - 2 pcs from 500ml

Eyewash bottle filled with 500 ml of sterile, buffered saline solution for single use. The eye bath directs as much fluid as possible to the eye without excessive waste and also helps keep the eye open. The dust cap forms part of the vial and also serves as an opening mechanism. The buffered eyewash neutralizes splashes of acids or bases, while at the same time diluting and flushing away hazardous substances.

In the event of an eye injury, rinsing the eyes is easier with the right eyewash bottle

The eye wash bottles can be used in a Cederroth eye wash station or wall holder.

size: 6.6 x 23.5 cm

Contents: 2 x 500 ml

Excluding holder
