SPECIFICATIONS

Made in: United Kingdom

HS Code: 49011000

DESCRIPTION

Thomas Stowage - 10th edition

As with previous editions of Thomas' Stowage, revisions will be found in all parts of the book, based on new legislation, new commodities and improved methods of handling and carriage. Incidents continue to occur with liquefaction of bulk cargoes as well as losses of containers from the large ships now in service. Thomas' Stowage addresses these and other issues as far as it is able, and by pointing the reader in the direction of other sources which may assist them in the satisfactory loading, carriage and discharge of their cargo.
