Pains Wessex self-igniting light-smoke signal

Number: 3.05.0279

SPECIFICATIONS

Made in: Germany

HS Code: 36049000

DESCRIPTION

The Light and Smoke Lifebuoy Marker produces dense orange smoke for 15 minutes and features two self contained, inversion switched, LED lights which far exceed SOLAS requirements for output and duration.

- Diameter: 382x219x219mm including bracket
 - Day and night signal attached to 4kg lifebuoy, used in an emergency to mark the position of man overboard.
 - Provides 15 minutes of dense orange smoke.
 - Far exceeds SOLAS requirements of 2 hours at 2 candela for light output and duration.
 - Safe to use on petrol or oil covered water.
 - Lithium batteries sealed for life - no annual replacement.
 - Automatic or manual deployment.
 - Approved mounting height: 56m - but manufacturer tested to survive 100m drop into water. (SOLAS only requires 30m).
- 0507
