Ocean Signal rescueME PLB3 with AIS

Number: 3.40.0446

SPECIFICATIONS

Made in: United Kingdom

HS Code: 85255000

DESCRIPTION

With the introduction of Automatic Identification System (AIS) functionality, Return Link Service (RLS) technology, and Near Field Communication (NFC) capabilities in one 406 MHz Personal Locator Beacon (PLB), the new Ocean Signal rescueME PLB3 represents a significant step forward in the evolution of PLB's. The merging of 406 MHz and AIS distress messaging effectively pairs both global and local rescue, thereby maximizing access to the most effective rescue resources available. In addition, NFC capability provides users with the world's first smartphone connected PLB and the all-new Return Link Service feature provides users with the comfort in knowing that their distress message has been received and their location detected by worldwide Search and Rescue personnel.

As a leading innovator in life-saving products for both professional and recreational use, Ocean Signal is proud to offer the PLB3 AIS Personal Locator Beacon. As the world's FIRST PLB with AIS and the world's FIRST PLB to include NFC and mobile app, there's no need to justify why the PLB3 should be your FIRST choice.

Specifications:

- 406 MHz Cospas Sarsat distress signal (MEOSAR compatible)
 - 121.5 MHz local homing signal
 - AIS (Automatic Identification System) location signal
 - Return Link Service (RLS) functionality
 - Smartphone connectivity via NFC (Near Field Communication)
 - Free Ocean Signal Beacon mobile app (IOS and Android)
 - GNSS via GPS, Galileo and Glonass
 - White strobe light and infrared strobe light
 - Worldwide coverage
 - Simple life jacket attachment
 - Designed to integrate into inflatable life jackets
 - Multifunctional clip system is included
 - Small and lightweight
 - 5 year battery life
- 3091
