Jonbuoy GL Recovery Module Mark 6 - Glow Lite - Black Carbon Case

Number: 3.41.0103

SPECIFICATIONS

Made in: United Kingdom

HS Code: 89071000

DESCRIPTION

JON BUOY GL RECOVERY MODULE MK 6

The JBRM6 is a full man overboard solution enabling deployment of a device that can locate, support and recover a MOB.

It is accepted as a direct replacement for one traditional danbuoy, horseshoe, drogue, light and whistle, specified within the World Sailing Offshore Special Regulations, where two would normally be required.

To launch the JBRM6, a single latch provides a quick and intuitive release into the water. When operated, the JBRM6 deploys directly from the container, inflating automatically, immediately providing a high visibility safe haven. This supports the casualty comfortably out of the water, reducing the risk of hypothermia whilst awaiting recovery. The MOB is recovered horizontally, particularly important with a possibly hypothermic casualty and reducing the chance of complications or cardiac arrest during recovery.

Key features

- Single action deployment
 - Compact & lightweight
 - Aesthetic slimline container
 - Container available in white, black carbon style
 - Automatic inflation
 - Tailored buoyancy design
 - SOLAS automatic light
 - Intuitive boarding assistance
 - Integrated water stability system
 - Lifting harness
 - SWL of 200kg
 - Retro-reflective binding
 - 5m throwing quoit & line
 - AIS attachment point
 - 2 year service intervals
- 2990
