DESCRIPTION

Hamburg to Helgoland, the world-famous northern German port city and Germany's only offshore island. The chart set DE 11 Elbe to Helgoland takes you from the Port of Hamburg via Stade, Glücksstadt to Brunsbüttel and Cuxhaven on the open North Sea to Helgoland. Up-to-date nautical charts are essential in this busy sea area. The Atlas DE 11 from NV Verlag offers all information that is required on board for safe navigation in a clearly structured and understandable manner. The NV Atlas Elbe DE11 contains all the information necessary for navigation in the difficult waters of the German Bight and additional port plans and details for approaches and passages in the waters for the sea area from the Elbe to Helgoland. The chart set also contains the current tide information as well as current data relating to the tide diamonds in the charts. This chart set includes 2 oversailers 17 cruising charts 13 details Tidal calendar and tidal currents included Digital charts for navigation program and nv charts app 365 day licence Port charts paper & Digital Navigation information in German and English Update - Update The chart sets for the German North Sea are published annually in updated editions. Updates are provided as downloads for the digital nautical charts at the beginning of the season. Up-to-date nautical charts are the basis for safe navigation. NV Charts offers a monthly update service for its German North Sea charts from April to October. So that you are always "up-to-date". NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
