Number: 5.15.0324-2025

SPECIFICATIONS

Made in: Germany

HS Code: 49059900

DESCRIPTION

For water sports enthusiasts who want to travel to the region around Bremen, Oldenburg, Bremerhaven and Wilhelmshaven, the DE12 from NV Charts is the right set of charts that should be on board. As a federal waterway, the Weser is a highly frequented river that should not be navigated without up-to-date charts. Bremerhaven is a traditional port city which, among other things, houses the German Maritime Museum and is now the location of the second largest overseas port in Germany after Hamburg. From here you can reach the German Bight or the Jade Bay, the large bay between the Lower Weser and the East Frisian Islands. The tidal range at the mouth of the Weser and also on the Jade Bay is between 3.15 to 4.33m and is initially unfamiliar for Baltic Sea skippers, but with a little preparation and up-to-date charts it is worth the trip. From Bremerhaven there is also a trip to the only German offshore island. It is not far to Heligoland with a distance of approx. 50 nm. There are numerous tourist facilities, restaurants and bunker options here. The chart set includes 2 oversailers, 19 cruising charts, 12 detailed charts, Monthly rectification service, Tidal calendar and tidal currents included, Digital charts & Navigation programme and nv charts App, 365 days licence, Paper & Digital harbour plans, Navigation instructions in German and English, Update - Update. The chart sets for the German North Sea are published annually in updated editions. Up-to-date nautical charts are the basis of safe navigation. NV Charts offers a monthly update service from April to October for its German North Sea charts. So that you are always "up-to-date". NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
