## DESCRIPTION

The East Frisian islands of Borkum, Juist, Norderney, Baltrum, Langeoog, Spiekeroog and Wangerooge are both attractive and demanding. Seemingly endless expanse, the fresh breeze and long beaches characterize the archipelago off the coast of Lower Saxony - there is a lot to discover here for young and old. The islands are different in size and each has its own character, but the landscape is the same: sandy beach on the open sea side, dunes in the middle and marshland on the land side, where the Wadden Sea is located. In general the current-rich tidal water has well-developed marinas and supply options for guests. With the up-to-date nautical charts of the NV chart set DE 13 you are optimally equipped for the navigational challenges on the German North Sea coast and tide & current information are included in the handy atlas as well as access to the NVcharts app. The charts for the sea area around Ostfriesland, Borkum, Helgoland and Ems are the professional cartography in the North Sea that has been optimized for recreational shipping. They contain all the information necessary for navigation in the difficult waters of the German Bight and additional harbour plans and details for approaches and passages in the waters. The chart set also contains the current tide information as well as current data relating to the tide diamonds in the charts. This chart set includes 3 oversailers, 15 cruising charts, 16 details, Tidal calendar and tidal currents included. Digital charts for navigation program and nv charts app 365 day licence. Port charts paper & Digital Navigation instructions in German and English. Update - Update. The chart sets for the German North Sea are published annually in updated editions. Up-to-date nautical charts are the basis of safe navigation. NV Charts offers a monthly update service for its German North Sea charts from April to October. So that you are always "up-to-date". NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
