Number: 5.15.0342

SPECIFICATIONS

Made in: Germany

HS Code: 49059900

DESCRIPTION

As a sequel of the popular series 1 and 2, NV Charts offers the NV Atlas series 3. North of Copenhagen - where harbours and beautiful places line up and the distance between Denmark and Sweden is the smallest - this set of nautical charts takes you along the Swedish west coast via Gothenburg through the Kattegat to Skagen. It is possible to sail directly into the Limfjord towards the North Sea via the Aalborg Bay. Or just visit the beautiful Kattegat islands of Läsö, Anholt and Samsö. The practical atlas format as well as the option to download digital charts and a harbour pilot book with insider tips complete the package. To complement this chart set we recommend series 9 which takes you directly and safely through the Limfjord into the North Sea or the two Swedish chart sets 5.2 and 5.1 which take you along the entire Swedish west coast to the beginning of the Oslofjord. The handy recreational boat charts are a chart set specially designed for recreational boating. Charts for the Samsø - Sund - Kattegat sea area include nautical charts in various scales as well as all harbour plans and details for approaches and passages in the waters. In addition clearance heights for bridges power lines etc. as well as all nautical and navigational information are included. Thanks to the clear structure the recreational skipper can quickly find accesses harbours and anchorages and is pointed to navigational important details that also appear in the nv charts app. The chart series impresses with its detailed scales and optimal page cuts. This chart set includes 7 Passage Charts 8 Coastal Charts 8 detailed chartsport pilot with plans for all marinas and pleasure craft harbours digital charts included new: Vector charts download nv charts app and navigation software 365 days licence Harbour pilot in paper / digital in German and English Shore pilot digital Aerial photographs of the German and Danish coasts digital Navigation instructions in German Meets legal requirements for up-to-date paper charts on board NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
