NV Charts for the Baltic Sea - The handy recreational boat charts are a chart series specially designed for recreational boating. Charts for the sea area around Rügen - Bodden waters - Szczecin include nautical charts in various scales as well as all harbour plans and details for approaches and passages in the waters. In addition clearance heights for bridges power lines etc. as well as all nautical and navigational details are included. Thanks to the clear structure the recreational skipper can quickly find accesses harbours and anchorages and is pointed to navigationally important details that also appear in the nv charts app. The chart series impresses with its optimal scales and balanced page cuts. The chart set includes 4 Passage Charts 13 Coastal Charts 8 detail charts sport pilot with plans for all marinas and pleasure craft harbours digital charts included new: Vector charts download nv charts app and navigation software 365 days licence Hafenlotse in paper / digital in German Navigation instructions in German Meets legal requirements for up-to-date paper charts on board NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
