NV Atlas England - UK 2 - Start Point to The Needles - 2025

Number: 5.15.0405

SPECIFICATIONS

Made in: Germany

HS Code: 49059900

DESCRIPTION

The UK2 takes you along the picturesque rocky coast between the counties of Dorset and Devon. Landmark destinations such as The Needles, a group of three chalk islands on the western tip of the Isle of Wight, and Portland Bill, which shows you the safe route to Weymouth, are included in this chart set. Past the "English Riviera" with the mildest climate that England has to offer, it goes up to Start Point. The coastline on this chart series, also known as the "Jurassic Coast", was one of the first natural landscapes in England to be included in the UNESCO World Heritage List. In addition to the impressive rock and coastal formations, this region is also known as a fossil site. So if you long for a relaxing trip close to nature, you are well equipped with the UK2! Our charts are based on official data from the United Kingdom Hydrographic Office (UKHO) and contain additional harbour plans and details for approaches and passages in the waters. Thanks to the clear structure, the skipper can quickly find tide data, approaches, harbours and anchorages and is informed of important navigational details that also appear in the NV Charts app. The chart series impresses with its optimal scales and balanced sheet cuts. This chart set includes 2 Passage Charts, 5 Coastal Charts, 24 Details Charts. Code for the app: Digital charts & navigation program. Navigation instructions in English. Tide tables. Paper charts & Digital. Meets legal requirements for up-to-date paper charts on board NV Atlas chart format. NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
