NV Atlas England - UK 3 - The Solent - 2025

Number: 5.15.0410-2025

SPECIFICATIONS

Made in: Germany

HS Code: 49059900

DESCRIPTION

The UK3 takes you into the strait between Southampton and the Isle of Wight. The Solent is known as one of the best sailing areas in England, despite extreme currents due to tidal waters. In the summer it is relatively lively there, especially since Southampton has a large port and various cruise ships are on the way. The major regatta "Fastnet Race" starts every two years from Cowes, on the Isle of Wight, and is becoming increasingly popular. The Isle of Wight is characterized by its chalk hills that stretch across the island. Especially "The Needles", three rock islands made of chalk on the western tip of the island, are worth a detour. Our charts are based on official data from the United Kingdom Hydrographic Office (UKHO) and contain additional harbour plans and details for approaches and passages in the waters. Thanks to the clear structure, the skipper can quickly find tide data, approaches, harbours and anchorages and is informed of important navigational details that also appear in the NV Charts app. The chart series impresses with its optimal scales and balanced sheet cuts. This map set contains: 3 oversailers 8 precinct charts 25 detailed charts Code for the app Digital charts & navigation program Navigation instructions in English Tide tables Port charts paper & Digital Meets legal requirements for up-to-date paper charts on board NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
