NV Atlas England - UK 5 - Thames Estuary to Great Yarmouth - 2025

Number: 5.15.0420-2025

SPECIFICATIONS

Made in: Germany

HS Code: 49059900

DESCRIPTION

The UK5 is suitable for those who want to set off from the Netherlands towards the east coast of England above London. But even those who want to continue exploring the coast northwards from Sussex are well equipped with this atlas. The Suffolk coast as well as Essex including the estuary into the Thames are covered by this atlas. Cities such as Harwich, Ipswich and Lowestoft can also be found in this atlas. There is the possibility to go along the English coast towards Scotland. We would be happy to put together individual charts from Imray or the British Admiralty for you. Our charts are based on official data from the United Kingdom Hydrographic Office (UKHO) and contain additional harbour plans and details for approaches and passages in the waters. Thanks to the clear structure, the skipper can quickly find tide data, approaches, harbours and anchorages and is informed of important navigational details that also appear in the NV Charts app. The chart series impresses with its optimal scales and balanced sheet cuts. This chart set includes 3 overseers, 16 precinct charts, 16 detailed charts, code for the app, digital charts & navigation program, navigation instructions in English, tide tables, paper harbour charts & digital, meets legal requirements for up-to-date paper charts on board. NV Atlas chart format. NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
