DESCRIPTION

To get to the Oslofjord via the Swedish west coast, there is no way around the NV Atlas Series 5.1. This set of nautical charts begins on the beautiful island of Smögen and goes along Fjällbacka, Grebbestad, Stroemstad past the Svinesund into Halden in Norway. All larger archipelagos are listed so that lonely anchorages or ports can be approached as desired. You are quickly on the Norwegian side and can directly pass the Oslofjord. Nothing stands in the way of a summer holiday in the archipelago of western Sweden. This chart series for the archipelago is probably the most detailed set of recreational shipping charts on the market due to the publisher's own measurements and information. In many of the areas of interest for recreational boating, larger scales are used and additional charts are inserted. A harbour pilot with marinas and anchorages is included. Further nautically important information is available there in German and Swedish. This chart set contains 2 overseers / Översiktskort 10 district charts / Skärgårdskort 6 detail charts / Specialkort Data and information off the fairways Publishers own surveys and corrections nv charts. charts app and navigation software Harbour Pilot in paper / digital in German and Swedish Navigation instructions in German/English/Svensk Meets legal requirements for up-to-date paper charts on board NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
