DESCRIPTION

The region around Oslo is covered in the chart set NO1. If you are already in the Oslofjord, then you should definitely head to the Norwegian capital Oslo. The much-frequented fjord tapers off after passing the island of Jeløya (Moss). Even this densely populated area of Norway delights with its lovely landscape and colourful wooden houses. The largest island in the inner Oslo fjord is Håøya. Here you will find delightful anchorages before continuing on to Oslo. Oslo has reinvented itself in the last 10 years and has a lot to offer on land too. Norway's capital has a large number of guest berths in quiet or livelier areas. Most ports even have spaces for mega yachts. If you want it quieter, reserve a place on the island of Hovedøya just outside the city center. A ferry takes passengers from here to the city. With the chart set NO1 you are perfectly equipped. With this charts, skippers will find all relevant details and information for their trip in the area from Oslo to Tønsberg. The NV Atlas NO1 is the connection chart of the NO2, which leads you into the Oslofjord. NV charts for the Norwegian coast are based on data from the Norwegian Hydrographic Office and also contain the harbour plans of the "Norske Los" as well as numerous, specially charted details. Thanks to the clear structure, the skipper can quickly find approaches, harbours and anchorages and is informed of important navigational details that also appear in the NV Charts app. The chart series impresses with its optimal scales and balanced sheet cuts. This chart set contains 6 Passage Charts 9 Coastal Charts 14 detailed charts. Digital charts & Navigation programme Harbour charts paper & Digital Navigation instructions in English and Norwegian. NV Charts for the Norwegian coast are based on data from the Norwegian Hydrographic Office and also include the harbour charts of the "Norske Los" as well as numerous extra mapped details. The chart series is structured in such a way that the recreational skipper can find harbours and anchorages at the first go and is pointed to navigational interesting details of the respective sea area. NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
