## DESCRIPTION

With our nautical chart NO2 you will be guided from the Swedish border directly into the busy Oslofjord to the historic Fredrikstad. From there you can go directly to the other side to Tönsberg and reach the popular Kragerø on the beautiful coast. Of course, there is also the option of using the detailed charts to advance into the Telemark Canal or to approach one of the countless islands. NV charts for the Norwegian coast are based on data from the Norwegian Hydrographic Office and also contain the harbour plans of the "Norske Los" as well as numerous, specially charted details. Thanks to the clear structure, the skipper can quickly find approaches, harbours and anchorages and is informed of important navigational details that also appear in the NV Charts app. The chart series impresses with its optimal scales and balanced sheet cuts. The chart set includes: 6 Passage Charts 11 Coastal Charts 12 detailed charts Digital charts & Navigation programme Paper harbour plans & Digital Navigation notes in English and Norwegian NV Charts for the Norwegian coast are based on data from the Norwegian Hydrographic Office and also include harbour plans from the "Norske Los" as well as numerous extra mapped details. The chart series is structured in such a way that the recreational skipper can find harbours and anchorages at the first go and is pointed out navigationally interesting details of the respective sea area. NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
