## DESCRIPTION

Croatia - the small country on the Adriatic Sea in the former Yugoslavia is very popular for tourists and water sports enthusiasts due to its coast with the shimmering blue water and its over 1,200 islands. Everyone will find their paradise here - from lonely anchor bays, jetties at small restaurants, the "Konobe" to luxurious marinas with an all-round carefree package. In order to support you on your adventure from Trieste to Vodice on the Adriatic with clearly structured and detailed nautical charts for the region, we have produced the most comprehensive and up-to-date sets of charts for Croatia with official data as well as our own data. With this nautical chart you are optimally equipped for your trip on the Croatian coast! Thanks to the clear structure, the skipper can quickly find approaches, harbours and anchorages and is informed of important navigational details that also appear in the NV Charts app. The chart series impresses with its optimal scales and balanced sheet cuts. This chart set includes Passage Charts Coastal Charts Details Charts Digital charts & Navigation programme Paper harbour plans & Digital Navigational Notes in English NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
