DESCRIPTION

The North Frisian Islands off the west coast of Schleswig-Holstein are a popular holiday destination in the North Sea in the Schleswig-Holstein Wadden Sea National Park. Each island has its own charm and offers personal holiday happiness for every taste. Green dykes, long beaches and lots of sheep, these are the most famous characteristics of the five islands of Nordstrand, Pellworm, Föhr, Amrum and Sylt. With the chart set DE 10 you will not only find all the details for a safe journey for the North Frisian Islands, but also the Eider and Helgoland areas. The North Sea is demanding, but with good literature and up-to-date nautical charts you can lay the foundation for your trip through this area of the sea, whether by sailboat or motorboat. The chart series already contains the information on current and tide and both tides and currents are shown on the charts in an easily understandable way. This chart set includes 3 oversailers, 17 cruising charts, 16 details, Tidal calendar and tidal currents included. Digital charts for navigation program and nv charts app 365 days licence. Port plans paper & Digital Navigation instructions in German and English. Update - Update. The chart sets for the German North Sea are published annually in updated editions. Up-to-date nautical charts are the basis of safe navigation. NV Charts offers a monthly update service from April to October for its German North Sea charts. So that you are always "up-to-date". NV Atlas chart format NV Charts nautical charts are available in an outstandingly practical, handy atlas booklet format and thus offer many advantages over formats from other manufacturers. The nautical chart series have been designed by nautical experts and passionate water sports enthusiasts with the needs of recreational boating in mind. The NV Atlas has a very flat staple binding in the middle, so that the course triangle can also be used there without any problems. This innovative development makes it possible to look up charts quickly and always have them in the best possible order at the same scale. The NV Atlas is delivered in a plastic cover protected against splash water. This modern nautical chart format is very popular on sailing boats as well as on motor yachts and is the preferred choice of many of our customers.
