### Jonbuoy Recovery Module Mark 6 - white hardcase

Number: 3.41.0111

## SPECIFICATIONS

Made in: United Kingdom

HS Code: 89071000

## DESCRIPTION

### JON BUOY RECOVERY MODULE MK 6

The JBRM6 is a full man overboard solution enabling deployment of a device that can locate, support and recover a MOB. It is accepted as a direct replacement for one traditional danbuoy, horseshoe, drogue, light and whistle, specified within the world Sailing Offshore Special Regulations, where two would normally be required.

To launch the JBRM6, a single latch provides a quick and intuitive release into the water. When operated, the JBRM6 deploys directly from the container, inflating automatically, immediately providing a high visibility safe haven. This supports the casualty comfortably out of the water, reducing the risk of hypothermia whilst awaiting recovery. The MOB is recovered horizontally, particularly important with a possibly hypothermic casualty and reducing the chance of complications or cardiac arrest during recovery.

#### Key features

- Single action deployment
  - Compact & lightweight
  - Aesthetic slimline container
  - Automatic inflation
  - Tailored buoyancy design
  - SOLAS automatic light
  - Intuitive boarding assistance
  - Integrated water stability system
  - Lifting harness
  - SWL of 200kg
  - Retro-reflective binding
  - 5m throwing quoit & line
  - AIS attachment point
  - 2 year service intervals
- 2990
