Guide to Port Entry - 31th Edition - 2026

Number: 6.80.0077-2026

SPECIFICATIONS

Made in: United Kingdom

HS Code: 49059100

DESCRIPTION

The 31st edition of the Guide to Port Entry, which will be released on 16 February 2026, supports more than just efficient port access. Covering over 19,000 ports and terminals worldwide, it provides updated information to help plan safe, compliant and efficient voyages, including port manoeuvring and cargo transfers, from start to finish.

From entry requirements and berth specifications to medical facilities, cargo operations and service providers, the Guide equips crews and shoreside teams with the insight they need to avoid delays and detentions, and respond to contingencies while keeping operations running smoothly.
