Ship Automation for Marine Engineers and ETOs - 2nd Edition

Number: 6.67.0056

SPECIFICATIONS

Made in: United Kingdom

HS Code: 49011000

DESCRIPTION

This publication looks in detail at the operation, maintenance and troubleshooting of onboard electrical systems and appliances. It provides guidance on how to read a variety of electrical diagrams, power and control circuit construction and components, troubleshooting techniques and regular maintenance. It can be used as a comprehensive source of reference for management and operational level engineers as well as ETOs at any stage of their career.
