Skylotec Milan 2.0 Hub 35m

Number: 7.80.0103

SPECIFICATIONS

Made in: India

HS Code: 84289090

DESCRIPTION

The MILAN 2.0 HUB is additionally equipped with a lifting function. This enables an accident victim to be lifted across a short distance, in order to release the victim's lanyards, after which the victim can then be safely lowered by rope (where the new housing design improves handling for the accompanying rescue). The SUPER STATIC 9.0 static rope fulfils this requirement despite its diameter of only 9 mm. The packing size of the MILAN 2.0 HUB is small compared to ropes which are 10.5 mm in diameter. This is a major advantage, in particular, at great heights.
