Twistlockbelt - size 3 - with 1.5 meter lanyard covered with leather for more heat resistance. Inclu

Number: 4.10.0052

SPECIFICATIONS

Made in: Germany

HS Code: 87082190

DESCRIPTION

When putting on the fireman's work positioning belt, the belt itself is wrapped around the body and closed by pulling the webbing end through the alloy frame, going back with it through the two-pin buckle and hooking the metal inserts into this. After that the webbing end is pulling through and fixed by the fitted webbing loops. The belt has to fit the body tightly.

Carbine: Twistlock

Weight: 1.030 gr

Approvals: DIN 14927
