Universal Sprayhood for Lifejacket -Sprayhood with SOLAS Retro

Number: 3.40.0022

SPECIFICATIONS

Made in: Sweden

HS Code: 65061010

DESCRIPTION

The Universal Sprayhood is a must-have for improving survival chances during emergency situations at sea. Designed to reduce the risk of secondary drowning, this sprayhood protects against waves and spray, while enhancing visibility with its fluorescent color and SOLAS-approved retro-reflective tapes. Compatible with all EVAL inflatable lifejackets, it's easy to use and essential for staying safe in harsh marine conditions. Ideal for anyone looking for 'best sprayhood for inflatable lifejackets' or 'how to prevent drowning in rough seas,' this product ensures better protection and visibility.

Key Features & Equipment Benefits:

Universal Fit

Protection Against Waves: Reduces the risk of water inhalation and secondary drowning.

Bright Fluorescent Colour: Enhances visibility in low-light or emergency conditions.

SOLAS Retro-Reflective Tapes: Improves detection by rescue teams.

Easy to Use: Simple deployment during emergencies.

Durable Construction: Designed to withstand harsh marine environments.

Technical Information:

Code:04751

Colour: Bright fluorescent yellow

Size: Universal
