Gasdetector Honeywell BW Flex 5-gas (LEL(IR)/O2/CO/H2S/CO2) - MED/SOLAS

Number: 4.29.0143

SPECIFICATIONS

Made in: United Kingdom

HS Code: 90271010

DESCRIPTION

Gasdetector Honeywell BW Flex 5-gas (LEL(IR)/O2/CO/H2S/CO2) - MED/SOLAS

WORK THE WAY YOU WANT TO

The IntelliFlash™ and ultra-bright alarm LEDs provide users an instant overview of the detectors status. Red for stop, amber as a warning, and green you're good to go, gives that simple view inexperienced users need. The display can also be configured to show all the gases at the same time or one at a time. Either way the operator gets all they need to know at a glance.

MORE GASES FOR MORE APPLICATIONS

Select up to 4 sensors from 14 different gas types. With common gases covered and a growing range of "exotic" sensors too, the BW Flex can be used to protect workers from up to five gases in even more industries.

READY FOR THE CONNECTED FUTURE

Pairing the Honeywell BW™ Flex 4/5 with your smart mobile device via Bluetooth™ allows remote measurement, field reporting of incidents, or even full instrument configuration and calibration. What's more everything is recorded for download when needed and users can easily synchronize with Safety Suite fleet management
