Fire extinguisher Lithium - Jockel - Li9m - 9ltr - AF

Number: 4.01.2049

SPECIFICATIONS

Made in: Germany

HS Code: 84241000

DESCRIPTION

Jockel Fire Extinguisher | Fluorine-free & PFAS-free

Protect your environment and your property with this high-quality, eco-conscious fire extinguisher. Manufactured in Germany by an environmentally certified company, this premium fire extinguisher offers reliable, top-tier performance when you need it most.

Designed for longevity and efficiency, it features a robust steel container with a UV-resistant outer coating and a thermoplastic inner coating, ensuring a long service life of up to 20 years with regular maintenance and normal use.

Key Features

- Eco-Friendly Formulation: Completely fluorine-free and free from per- and polyfluorinated chemicals (PFAS).
- High-Quality Build: Premium steel container with UV-resistant and thermoplastic coatings.
- Optimized Performance: Equipped with an extinguishing hose, lance, and a nozzle specially adapted to the agent for an optimum jet.
- User-Friendly & Maintainable: Simple, 3-step operation for quick action. Features a test and filling valve, plus economical maintenance thanks to standardized spare parts (JOCKEL modular system).
- Certified Quality: Fully compliant with CE and DIN standards.

Fire Classes & Applications

This fire extinguisher is specifically rated for:

- Class A: Solids and embers
- Class F: Grease fires

Ideal for: Catering, restaurants, canteens, snack bars, food trucks, canteen kitchens, bakeries, household use, and lithium-ion batteries.
