3NM Solar Barge Light

Number: 7.10.0013

SPECIFICATIONS

Made in: Australia

HS Code: 94054010

DESCRIPTION

The BargeSafe™ Solar 3NM is a solar-powered, fully self-contained LED barge light. It is a sector-certified, premium-quality product from Sealite, certified in accordance with UL 1104 and COLREG-72, with a visible range of 3 nautical miles (3NM).

Key features:

- * 3NM visible range
- * Accurate light intensity and sector configuration using a single LED
- * Fully self-contained with solar panel modules and battery
- * 360° all-round light with flashing mode or steady-on mode*
- * Optional Peep-Light

Light Intensity & Range

The BargeSafe™ Solar 3NM uses a single advanced LED to achieve a visible range of 3NM.

Optimised Optics

The optics and lens have been designed by Sealite's world-class engineering team for maximum performance.

Fully Self-Contained & Durable

Equipped with a robust aluminium chassis with rubber corners.

The BargeSafe™ Solar 3NM is fully self-contained with integrated solar panel modules and an internal battery.

The top of the light is colour-coded for easy identification of the light colour.

Easy Installation

Installation takes only a few minutes and requires no operation.

Fitted with a permanent ON/OFF switch for easy storage.

Peep-Light Connector (Optional)

The blue steady light assists with navigation on inland waterways.

It helps skippers when mooring the barge and assists in determining the turning movement of the bow as seen from the stern.

The Peep-Light is supplied as standard with a connection for a rechargeable 12V battery.
