Petzl VERTEX VENT White Safety Helmet

Number: 4.25.0010

SPECIFICATIONS

Weight: 0,49 kg

Made in: France

HS Code: 65061010

DESCRIPTION

Petzl Safety Helmet, 490g Weight, 53 to 63cm Head Circumference - Vertex Vent Series - A010CA00

Strap up and head into harsh environments using this safety helmet from Petzl. To make sure you're comfortable, the six-point webbing suspension system adapts to the shape of your head. An integral sweatband is on hand to soak up perspiration from your forehead, so even tough jobs are no sweat. You can easily adjust the support of the chin strap by moving the clip's position. Set it to low strength for on-the-ground tasks and high strength when you're up on tall structures, to stay on top of any situation.

- Complies with EN 397 standards for industrial safety helmets
- CENTERFIT feature for a balanced fit
- Built-in ventilation holes enable air circulation

The VERTEX VENT helmet is very comfortable, thanks to its six-point textile suspension and CENTERFIT and FLIP&FIT systems, which guarantee that the helmet fits securely on the head. The adjustable-strength chinstrap makes it ideal for both work at height and on the ground. It has ventilation holes with sliding shutters to allow airflow through the helmet. With its potential for integration of a Petzl headlamp, hearing protection, and multiple accessories, it is an entirely modular helmet, thus responding to the specific additional needs of professionals.

This helmet is made from ABS and PC, which means it's resistant to solvents, impact and chemicals.
