DESCRIPTION

The new JOCKEL GREEN 2.0 foam fire extinguishers are the latest development in environmentally friendly fire fighting.
Without fluorine surfactants and solvents, they are suitable for use on incipient fires of class A and B.
Their wide range of uses and residue-free disposal make them ideal for any type of environment.
The low specific gravity of the film-forming foaming agent ensures safe extinguishment of the fire by forming a closed dense vapor and aqueous barrier layer on the surface of the combustible material.
Furthermore, foam has a cooling effect due to its water content.
The GREEN 2.0 product line convinces with a higher extinguishing performance and an improved price -quality ratio.
