Gloves Nitrile - Size L - 1 pair

Number: MEII232ST1

SPECIFICATIONS

Made in: China

HS Code: 40151900

DESCRIPTION

Powder Free Vinyl Gloves
The vinyl gloves from Teqler are latex free, making them ideal for users with latex allergies. The high-quality gloves are non-sterile, powder free and have an excellent fit to guarantee wearing comfort. The disposable vinyl gloves have a smooth surface to offer good tactile sensitivity. Due to their excellent wear properties, the gloves can be used in every medical and healthcare sector.

The disposable gloves are ideal for working with low risk factors, like in nursing care or cleaning. They offer an affordable alternative to nitrile or latex gloves and protect the patient and wearer from contamination and germ transmission. Additionally, the vinyl gloves without powder can be worn by people with sensitive skin or allergic reactions to latex. The single use gloves are made from soft vinyl and are compliant with EN455 with an AQL of 1.5.
