Suture Daclon Nylon DS 16mm 5/0 - 75cm *S*

Number: MEI1213EST1

SPECIFICATIONS

Made in: Netherlands

HS Code: 90183210

DESCRIPTION

Daclon Nylon is a non-absorbent, monofilament suture material for long-term tissue support. The Monofilament causes only minimal tissue reaction and is easy to use. Daclon Nylon advantages: - Causes only minimal tissue reaction - Has no capillary effect (does not promote bacteria growth) - Long-term tissue support - No sawing effect when passing through tissue
