Blood pressure meter

Number: MEI416ST1

IMPA number: 391368

SPECIFICATIONS

HS Code: 30049000

DESCRIPTION

The Omron M3 Comfort blood pressure monitor makes it easy to get clinical accuracy from the comfort of your own home.

- The easy way to get accurate results. The M3 comfort comes with Omron's unique Intelli Wrap Cuff, which takes the hassle out of placing the cuff in the right position on your upper arm. As you measure, further help comes from the Cuff wrap guide, which will indicate you've correctly fastened the cuff. While measuring your blood pressure, you'll need to sit still to ensure an accurate reading. However, if you do move, the body movement detector will let you know if there's been too much movement, to avoid inaccurate blood pressure readings.

- Once it's taken your blood pressure reading the Omron M3 Comfort will display your heart rate and an indicator if it's detected an irregular heartbeat or your blood pressure is above the recommended level – indicating hypertension.

- Part of Omron's latest range of upper arm home blood pressure monitors, the M3 Comfort has a new intuitive design that's easy to use. The device can be used by two separate users + a guest and stores up to 60 readings per user.

1. Big display, easy for reading
2. One key operation
3. Average function
4. Two memory zones.

- Display Type: Digital
- Form Method: Oscillometry
- Measurement Range: 0-300mmHg, 0-40kpa (pressure) 40-200Pulse/min (Pulse)
- Date Memory: 60sets (Blood Pressure/Pulse rate)
- Accuracy: +/-3mmHg(+/-0.4)kPa +/-5%(Pulse)
- Pressurization: Manual Pressurization
- Depressurization: Automatic Constant Speed Exhaust
- Pressure Detection: pressure sensor
- Power supply: 4 batteries (4xAA)
- Battery Management: 3Mins Power-off/Low battery indicator
- Operating Environment: +5°C- +40°C
