Imovane 7,5mg - 30 tablets

Number: ME4502SUBST30

SPECIFICATIONS

HS Code: 30049000

DESCRIPTION

Imovane tablets contain the active ingredient zopiclone. Imovane tablets are sleeping pills (hypnotics) which work by acting on the brain to cause sleepiness. They may be used for short term treatment of difficulties in falling asleep, waking up at night or early in the morning or difficulty in sleeping caused by events, situations or mental illness, which is severe, disabling or causing great distress.
