Binoculars Konus - 7x50 - Abyss

Number: 1.65.0010

SPECIFICATIONS

Weight: 0,87 kg
Made in: China
HS Code: 90051000

DESCRIPTION

The Konus Abyss 7x50 is the binoculars par excellence for use at sea, on the waterfront or during winter sports. The multiple treated optics reduce the reflection of water and / or snow. And the green coating eliminates reflections and thus ensures a clear view. The Abyss 7x50 is waterproof and nitrogen filled so the binoculars will not fog up.

The binoculars are equipped with a rubber casing, which guarantees a good grip even when the binoculars are damp. Furthermore, the Abyss is equipped with a carrying strap and a bag to store and protect everything during transport.

Application Konus Binoculars Abyss 7x50

The Konus Abyss 7x50 has a central focusing wheel and with a weight of 868 grams, the binoculars can be used with one hand. By rolling up the eyecups, the eye relief can easily be reduced as needed. In this way the binoculars can easily be adjusted to everyone's preferences and are therefore suitable for everyone who spends time on the water, but also along the water's edge, such as (sports) fishermen. During winter sports, the Abyss 7x50 should not be missing.
