### Lamp With Magnifier & Clamp

Number: MESP10.0042ST1

## SPECIFICATIONS

Made in: Netherlands

HS Code: 42032910

## DESCRIPTION

### Luxamed LED Examination Light

The Luxamed LED examination light provides optimal illumination for professional examinations of patients in various specialities thanks to an illuminance of 50,000 lux. The stable chassis can be positioned individually and with the gooseneck the examination light can be precisely aligned to the examination field. The stand of the examination lamp is white - for the lamp neck and head you can choose between various, modern colours.

The Luxamed LED examination light is optionally available with a removable, sterilisable handle.
