Weight: 2,70 kg

Made in: Norway

HS Code: 90189084

## DESCRIPTION

Doll for practicing- Laerdal Little Anne QCPR (licht), 123-01050

### Laerdal Little Anne QCPR

The Little Anne QCPR is a realistic and affordable manikin to train quality CPR. The Little Anne QCPR is now available with QCPR feedback technology. This makes it possible for instructors to assess the quality of CPR. The CPR manikin has anatomical truthful features. For example, the manikin has a realistic compression resistance, the chest rises with correct ventilation and ventilation is only possible if the chin lift is performed correctly. This teaches the student how to perform correct CPR.
