Insecticide Topscore or Sprigone Spray - 400ml

Number: MEII813BST1

SPECIFICATIONS

HS Code: 38089190

DESCRIPTION

Top score against flying insects contains natural pyrethrum and piperonyl butoxide. Pyrethrum is a natural insecticide. Pyrethrum is characterized by a broad spectrum of action and rapid degradation in the presence of light. It is a so-called nerve agent. An irritation of the nervous system occurs, which results in the death of the insect.

Only a small amount of active substance is required for Topscore to work effectively against flying insects.

Piperonyl butoxide strengthens the effect of the Pyrethrum. Top score against flying insects combines high effectiveness with very low toxicity to mammals.

Instructions:

Allowed in living, working and other residential areas.

Close doors and windows of the room to be treated.

Then spray from the center of the room into the 4 top corners.

Do not spray for longer than 1 second per 10 m2 of room volume.

Keep a distance of at least 50 cm from walls or objects.

Keep the room closed for 10 minutes and then ventilate thoroughly.

Do not use on animals and plants.
