Rope Nylon - White - 3STRAND 1"CIR 8mm x 200mtr

Number: 8.90.0004

SPECIFICATIONS

Made in: India

HS Code: 56075019

DESCRIPTION

Nylon line 3 strand, white - 8mm x 200 meter

Properties

- Very strong
- Shock absorbing
- Excellent strong retention
- Balanced and easy to use
- Works superior under severe conditions
- Excellent abrasion resistance
- Polyamide
- Construction: 3 Strands
- Colour White
- UV resistance: Very good
- Standard: ISO EN 1140
- Dry and wet conditions: Decreases when wet.
- Melting point: 220
- Weight: 1.14

Applications

Mooring, Towing, Fishing and other commercial applications. Nylon ropes are strong, durable and widely used in industry. These ropes, high in strength, with a longer lifespan, have been developed for applications that absorb a lot of energy. Flexible, with maximum bearing surface for superior handling, these ropes are especially used for dynamic loads during mooring and towing.
