DATASHEET

ARTICLE

Tubes CH31901 Ammonia 0,5%/a

Number: 4.26.0112

SPECIFICATIONS

Made in: Germany

HS Code: 38220000

DESCRIPTION

For short-term measurements more than 160 Dräger-Tubes are available to measure the so-called spot concentrations of specific gases. A wide range of different gases and vapours can be detected and measured, e.g.: determining and measuring concentration peaks, measuring personal exposure in the inhalation area, detecting leaks in pipelines, gas installations etc., and air analysis in sewers, shafts and confined spaces.

Arsine 1/a,
Standard range (20° C, 1013 hPa):
- 0.05-3 ppm (measurement time approx 6 minutes)
